Session Statement on the 2010 GA

By Alan Hager

The General Assembly (GA) of our denomination met in early July in Minneapolis and conducted an enormous amount of business. The Session of Spotsylvania Presbyterian Church is prayerfully and carefully evaluating the actions of this year's GA. We are concerned that media sources have misrepresented the work of some of the actions of the GA. At the same time, we are disappointed at some of the actions of the GA and are working to discern their full significance and implications.

We want the congregation to be assured that we continue to endorse the beliefs, vision statement, and mission of our church. You may find these statements at our church website (www.spconthewb.org). We also want you to know that we have not changed, but remain committed to teaching Biblical and reformed doctrine. Likewise, our intention is to honor God as we structure our life as a church according to the truth of God's Word.

We will provide a more in-depth summary of this year's GA in the near future. In the meantime, feel free to contact any member of Session if you have questions or concerns.
